Each purchaser's tax situation is unique and the available tax benefits and the applicable federal tax laws, regulations and guidelines are subject to change without notice. Therefore, customers must consult their tax advisor to determine the proper tax treatment of any vehicle purchase(s). For more information, visit www.irs.gov. This advertisement is for informational purposes only and should not be construed as tax advice or as a promise of availability or amount of any potential tax benefit or reduced tax liability.

¹Preproduction model shown. Actual production model may vary. 2024 Chevrolet Equinox EV 2RS limited availability starting Fall 2023. Full lineup available starting Spring 2024.

²Preproduction model shown. Actual production model may vary. 2024 Chevrolet Blazer EV available starting Summer 2023. Blazer EV SS available Spring 2024. ³Silverado EV WT preproduction model shown. Actual production model will vary. Initial availability for Fleet and Commercial customers starting Spring 2023. Retail availability expected Summer 2024. ⁴Taxpayers may be entitled to U.S. federal income tax deductions and/or credits for purchases of vehicles that are placed in service in a trade or business during 2023. Determining the proper income tax treatment of any vehicle purchase requires careful consideration of several factors including, but not limited to, the applicable tax laws, regulations and guidelines, characteristics and attributes of the particular vehicle purchased and the purchaser's income tax situation. Each purchaser's tax situation is unique and the available tax benefits and the applicable federal tax laws, regulations and guidelines are subject to change without notice. Therefore, customers must consult their tax advisor to determine the proper tax treatment of any vehicle purchase(s). For more information, visit www.irs.gov. This advertisement is for informational purposes only and should not be construed as tax advice or as a promise of availability or amount of any potential tax benefit or reduced tax liability. ⁵Individuals, businesses and tax-exempt organizations that purchase a qualifying electric vehicle for use in a trade or business may qualify for a federal Qualified Commercial Clean Vehicle income tax credit of up to \$7,500. For more information, visit <https://www.irs.gov/credits-deductions/commercial-clean-vehicle-credit>. Individuals who purchase a qualifying electric vehicle for non-business use may qualify for a federal Clean Vehicle income tax credit of up to \$7,500, subject to additional restrictions. For more information, visit <https://www.irs.gov/credits-deductions/credits-for-new-clean-vehicles-purchased-in-2023-or-after>. Consult your tax advisor to determine the proper tax treatment of any vehicle purchase(s) including, without limitation, which vehicles qualify, the amount of the available credit, how to claim the credit, how claiming a credit may impact other tax deductions and/or tax credits and for additional restrictions and limitations. Clean Vehicle and Commercial Clean Vehicles tax credit amounts, eligibility requirements and other requirements, restrictions and limitations are subject to change without notice.

⁶When properly equipped; includes weight of vehicle, passengers, cargo and equipment.
